

Muhammad Shahzaib

Full-Stack MERN Developer

+92 302 0549257 | theshahzaib.dev@gmail.com | theshahzaibdev.online | linkedin.com/in/theshahzaibdev | github.com/theshahzaib-dev | Lodhran, Pakistan

SUMMARY

Full-Stack MERN Developer with hands-on professional experience at Arwa Technologies (frontend) and Solution Carrier (backend architecture, authentication, and Node.js development). Comfortable owning both frontend interfaces and backend APIs, with growing exposure to PostgreSQL and AI integration via Hugging Face. After a period focused on completing Intermediate studies in Computer Science, resumed active development in mid-2026 — shipping a new institutional website and building a full-stack HRM platform. Actively seeking full-time, internship, or remote opportunities in Full-Stack/MERN development.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit, Framer Motion

Backend: Node.js, Express.js, MongoDB, Mongoose, PostgreSQL, Firebase, REST APIs, JWT Authentication, Role-Based Access Control

Tools & Platforms: Git, GitHub, Vercel, MongoDB Atlas, Neon, Postman, Hugging Face

Also Familiar With: C#, ASP.NET Core

WORK EXPERIENCE

Software Developer (Full-Stack) | Solution Carrier

Oct 2024 – Mar 2025

- Worked as a backend-focused developer on production Node.js applications, including system architecture, authentication, and authorization.
- Built the frontend for BedSpace, a multi-page hotel booking platform.
- Developed core backend functionality — authentication, product management, and order processing — for Click Desire, an ecommerce platform.

Front End Developer | Arwa Technologies

Mar 2024 – Sep 2024

- Developed responsive web applications using React.js, Next.js, JavaScript, and Tailwind CSS.
- Built reusable UI components to improve development speed and long-term maintainability.
- Collaborated closely with designers and developers to ship production-ready features on schedule.
- Contributed to a legacy VB/WinForms-to-ASP.NET Core migration project using C#, broadening exposure beyond the core JavaScript stack.

FEATURED PROJECTS

Government Graduate College Lodhran — Official Website

Next.js, React.js, Tailwind CSS

- Developed the official multi-page college website covering academic programs, admissions, faculty, and institutional information.
- Deployed live on Vercel, ensuring strong performance, accessibility, and cross-device compatibility.

Live Demo: <https://gqclodhran.edu.pk/>

HRM System — In Progress

React.js, Node.js, PostgreSQL (Neon)

- Building a full-stack HR management platform, with authentication, employee management, and department management completed; leave requests, payroll, and attendance in progress.
- First project working with PostgreSQL/Neon, expanding beyond a primarily MongoDB background.

Lodhran GPT

Next.js, Firebase, Hugging Face

- Built an AI-powered platform integrating Hugging Face models across Business, Education, and Shopping categories.
- Designed a responsive, user-friendly UI and deployed the platform on Vercel.

EDUCATION

Intermediate in Computer Science (ICS) | Government Graduate College Lodhran

2024 – 2026

- Building a strong foundation in computer science, mathematics, statistics, programming fundamentals, and problem-solving.

CERTIFICATION

MERN Stack Development | Tareen Institute of Computer Education & Resources (TICER)

Oct 2022 – Apr 2023

- Completed comprehensive training covering MongoDB, Express.js, React.js, Node.js, REST APIs, authentication, and full-stack development.
