PROFESSIONAL SUMMARY

Full Stack Developer (MERN) with 2+ years of professional experience building production-ready web applications using React.js, Next.js, Node.js, Express.js, MongoDB, and PostgreSQL. Experienced in developing responsive frontend applications, RESTful APIs, authentication systems, role-based access control, and database-driven solutions. Comfortable working across the frontend and backend, debugging application issues, integrating APIs, and deploying applications using modern development workflows. Strong problem-solving mindset with a focus on clean, maintainable code and reliable software delivery.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, Next.js, Redux Toolkit

Backend: Node.js, Express.js, MongoDB, PostgreSQL, Firebase, REST APIs, JWT Authentication, Role-Based Access Control

Tools & Platforms: Git, GitHub, Vercel, MongoDB Atlas, Neon, Postman, Hugging Face

PROFESSIONAL EXPERIENCE

Full Stack Developer | Self Employed *2026 – Present*

• Developed scalable, responsive interfaces and backend services while collaborating on product requirements, debugging, API integration, and production-ready delivery.

• Built and maintained full-stack SaaS features using Next.js, React.js, Node.js, Express.js, MongoDB, REST APIs, authentication, and role-based workflows.

Software Engineer (Full-Stack) | Solution Carrier *Oct 2024 – Dec 2025*

- Worked as a backend-focused developer on production Node.js applications, including system architecture, authentication, and authorization.
- Built the frontend for BedSpace, a multi-page hotel booking platform.
- Developed core backend functionality — authentication, product management, and order processing — for Click Desire, an ecommerce platform.

Front End Developer | Arwa Technologies *Mar 2024 – Sep 2024*

- Developed responsive web applications using React.js, Next.js, JavaScript, and Tailwind CSS.
- Built reusable UI components to improve development speed and long-term maintainability.
- Collaborated closely with designers and developers to ship production-ready features on schedule.
- Contributed to a legacy VB/WinForms-to-ASP.NET Core migration project using C#, broadening exposure beyond the core JavaScript stack.

SELECTED PROJECTS

• **SchoolPilot** – School Management SaaS: Developed a bilingual school management platform with role-based workflows for principals, teachers, students, parents, accountants, receptionists, librarians, and drivers, using Next.js, TypeScript, Node.js, Express.js, and MongoDB.
• **SaaSifyHQ** – SaaS Platform: Built and contributed to a modern SaaS platform with responsive dashboards, authentication, reusable components, API integration, and scalable full-stack architecture.
• **GGC Lodhran** – College Website: Designed and developed the official college website with admissions, downloads, campus information, facilities, online applications, and contact functionality.
• **WorkForce Pro** – HR Management System: Developed an HR management platform with role-based workflows, responsive dashboards, employee management, and PostgreSQL/Prisma-backed APIs using React.js, Node.js, Express.js, and Tailwind CSS.
• **MR. Shoes** – E-Commerce Shoe Store: Built a modern, responsive e-commerce platform for premium footwear using Next.js, TypeScript, Tailwind CSS, and MongoDB. Features include product browsing, category and advanced filtering, price and rating filters, customer reviews, wishlist, cart, order management, direct WhatsApp ordering, newsletter subscriptions, and a responsive shopping experience.
• **Personal Portfolio** – Developer Portfolio: Designed and developed a responsive personal portfolio using Next.js, React, and Tailwind CSS to showcase projects, skills, experience, and services.

EDUCATION

- **Bachelor of Science in Software Engineering (BSSE)** | Virtual University of Pakistan *Oct 2026 – Present*
- **MERN Stack Development Certification** | Tareen Institute of Computer Education & Resources *Oct 2022 – Apr 2023*

ADDITIONAL STRENGTHS

- Responsive Web Development • Reusable UI Components • REST API Integration • Browser Debugging • Performance Optimization • Cross-Browser Compatibility • SEO Fundamentals • UI Design Implementation • Git/GitHub • Email Template Development
